Dear Student/Parent

Junior Lawn Bowls Development Programme 2012

Expressions of interest are sought from year 7 and 8 students, both male and female, who would like to participate in a programme to learn the game of Lawn Bowls.

The programme has the potential for successful players to play District, Zone and State Championships in the future.

The programme will commence in mid March and continue to mid June and consist of 2 coaching sessions per week on Tuesday and Friday afternoons after school from 3.30 pm for about 1 hour.

At the completion of the programme a maximum of 10 students with the most commitment, potential and progression in the game, and an attendance record of at least 80 percent, will be rewarded with free Junior Membership of the Club and ongoing coaching and some representative clothing. The Club will also endeavour to provide a set of bowls and bag which will remain the property of the Club.

Should you wish to participate in this programme please provide your details below and fax/return this note to the Club by 9 March 2012.
